

Focused meetings

ISAF Digital 2021 - International Severe Asthma Forum Winter 2021 / Digital Event

The ISAF Digital 2021 aims to bring together scientists and clinicians with a broad range of experience, from junior scientists/doctors to key opinion leaders, at a focused meeting dedicated to all aspects of severe asthma. The programme is designed to encourage scientific collaborations and facilitate the translation of emerging discoveries into clinical practice to benefit patients.

SAM Digital 2021 - Skin Allergy Meeting 12 – 13 March 2021 / Digital Event

Held in collaboration with the European Society for Contact Dermatitis (ESCD), SAM 2021 will give up to date information for clinicians and cover basic, translational and clinical aspects on diseases such as atopic dermatitis, contact dermatitis, occupational eczema and more. To increase the learning experience interactive learning sessions with an important “teaching point” will be implemented in addition to keynote lectures given by experts from top-level international institutions.

Allergy & Winter Schools

Immunology Winter School Digital 2021 22 - 24 January 2021 / Digital Event

The 19th Immunology Winter School on Basic Immunology Research in Allergy and Clinical Immunology will take place from 22 to 24 January 2021, in a digital format. With an innovative but still highly interactive concept, this meeting is intended for young scientists (PhD students and junior postdocs) and medical doctors from around the world, who are actively involved in the field of allergy, asthma and clinical immunology.
