JMA Case Report Session  
&  
JMA Poster Sessions

Presenter	Session	number	Title	Abstract ID
Alicia Moncada Salinero	JM case report session	JMA7	Allergy to the fatty part of hemp seed	001630
Emilie Roy	Allergen immunotherapy/Biologicals	JMA Poster session 01	Abatacept to induce remission of peanut allergy during oral immunotherapy (ATARI trial): baseline peanut-specific T cell responses of participants	000349
Zhaofeng Xu	ENT/Ocular allergy/Asthma/Environmental allergy/One health	JMA Poster session 02	The multi-omics single-cell landscape of sinus mucosa in uncontrolled severe chronic rhinosinusitis with nasal polyps	001905
Jose Antonio Céspedes	Epidemiology/Allergy diagnosis	JMA Poster session 03	Novel Dendrimer Magnetic Nanoparticles for Accurate Specific IgE Determination of Penicillins	001146
Caitlin Burk	Food allergy/Anaphylaxis/Eosinophilic esophagitis	JMA Poster session 04	Expression of GPR15 and CD38 on peripheral blood pathogenic effector Th2 cells can identify active eosinophilic esophagitis	002022
Natalia Cuervo López	Basic immunology/Biomarkers/Immunodeficiency /COVID-19/Infection	JMA Poster session 05	The synthetic cannabinoid WIN55212-2 displays potent anti-inflammatory properties in aortic endothelial cells both in vitro and in vivo	001465
Paolo D'Avino	Dermatology/Mastocytosis	JMA Poster session 06	Decipher the effects of type 2-cytokines- and IL-22-induced epithelial barrier dysfunction and skin Inflammation in ex-vivo human skin	001893
Mukesh Kumar	Drug allergy	JMA Poster session 07	Development of novel MRGPRX2 antagonists as therapeutic drugs to treat non-IgE mediated allergies	000373
Sergio Sánchez Fernández	Pediatrics	JMA Poster session 08	Food oral immunotherapy monitoring with OITcontrol® is related to reduced number of home adverse reactions and better treatment compliance compared with paper-based monitoring	100183
