#### EAACI FAAM-EUROBAT Introduction

### FAAM-EUROBAT 2024

FOOD ALLERGY AND ANAPHYLAXIS MEETING & EUROPEAN CONSORTIUM ON APPLICATION OF FLOW CYTOMETRY

ATHENS - GREECE 21-23 NOVEMBER

**IN ALLERGY** 

EAACI

EUROBAT .

#FAAMEUROBAT2024 www.eaaci.org The meeting focuses on advancements in diagnosing and managing food allergies, with discussions ranging from **bench to bedside**.

Topics include immune mechanisms, immunomodulatory treatments, and holistic approaches emphasizing **immuno-nutrition**. Attendees will explore cutting-edge diagnostic tools such as **basophil activation tests (BAT)**, molecular allergology, and established methods like skin prick tests.

The program highlights the impact of **climate change and pollution** on food allergies, alongside innovative management strategies and transformative treatment options.

With contributions from a global lineup of allergists, immunologists, scientists, and healthcare professionals, this highly multidisciplinary event offers valuable networking opportunities with industry peers. Special attention will be given to overcoming challenges in mainstreaming BAT and its use in novel food and drug allergies.
