

EAACI-CHARD

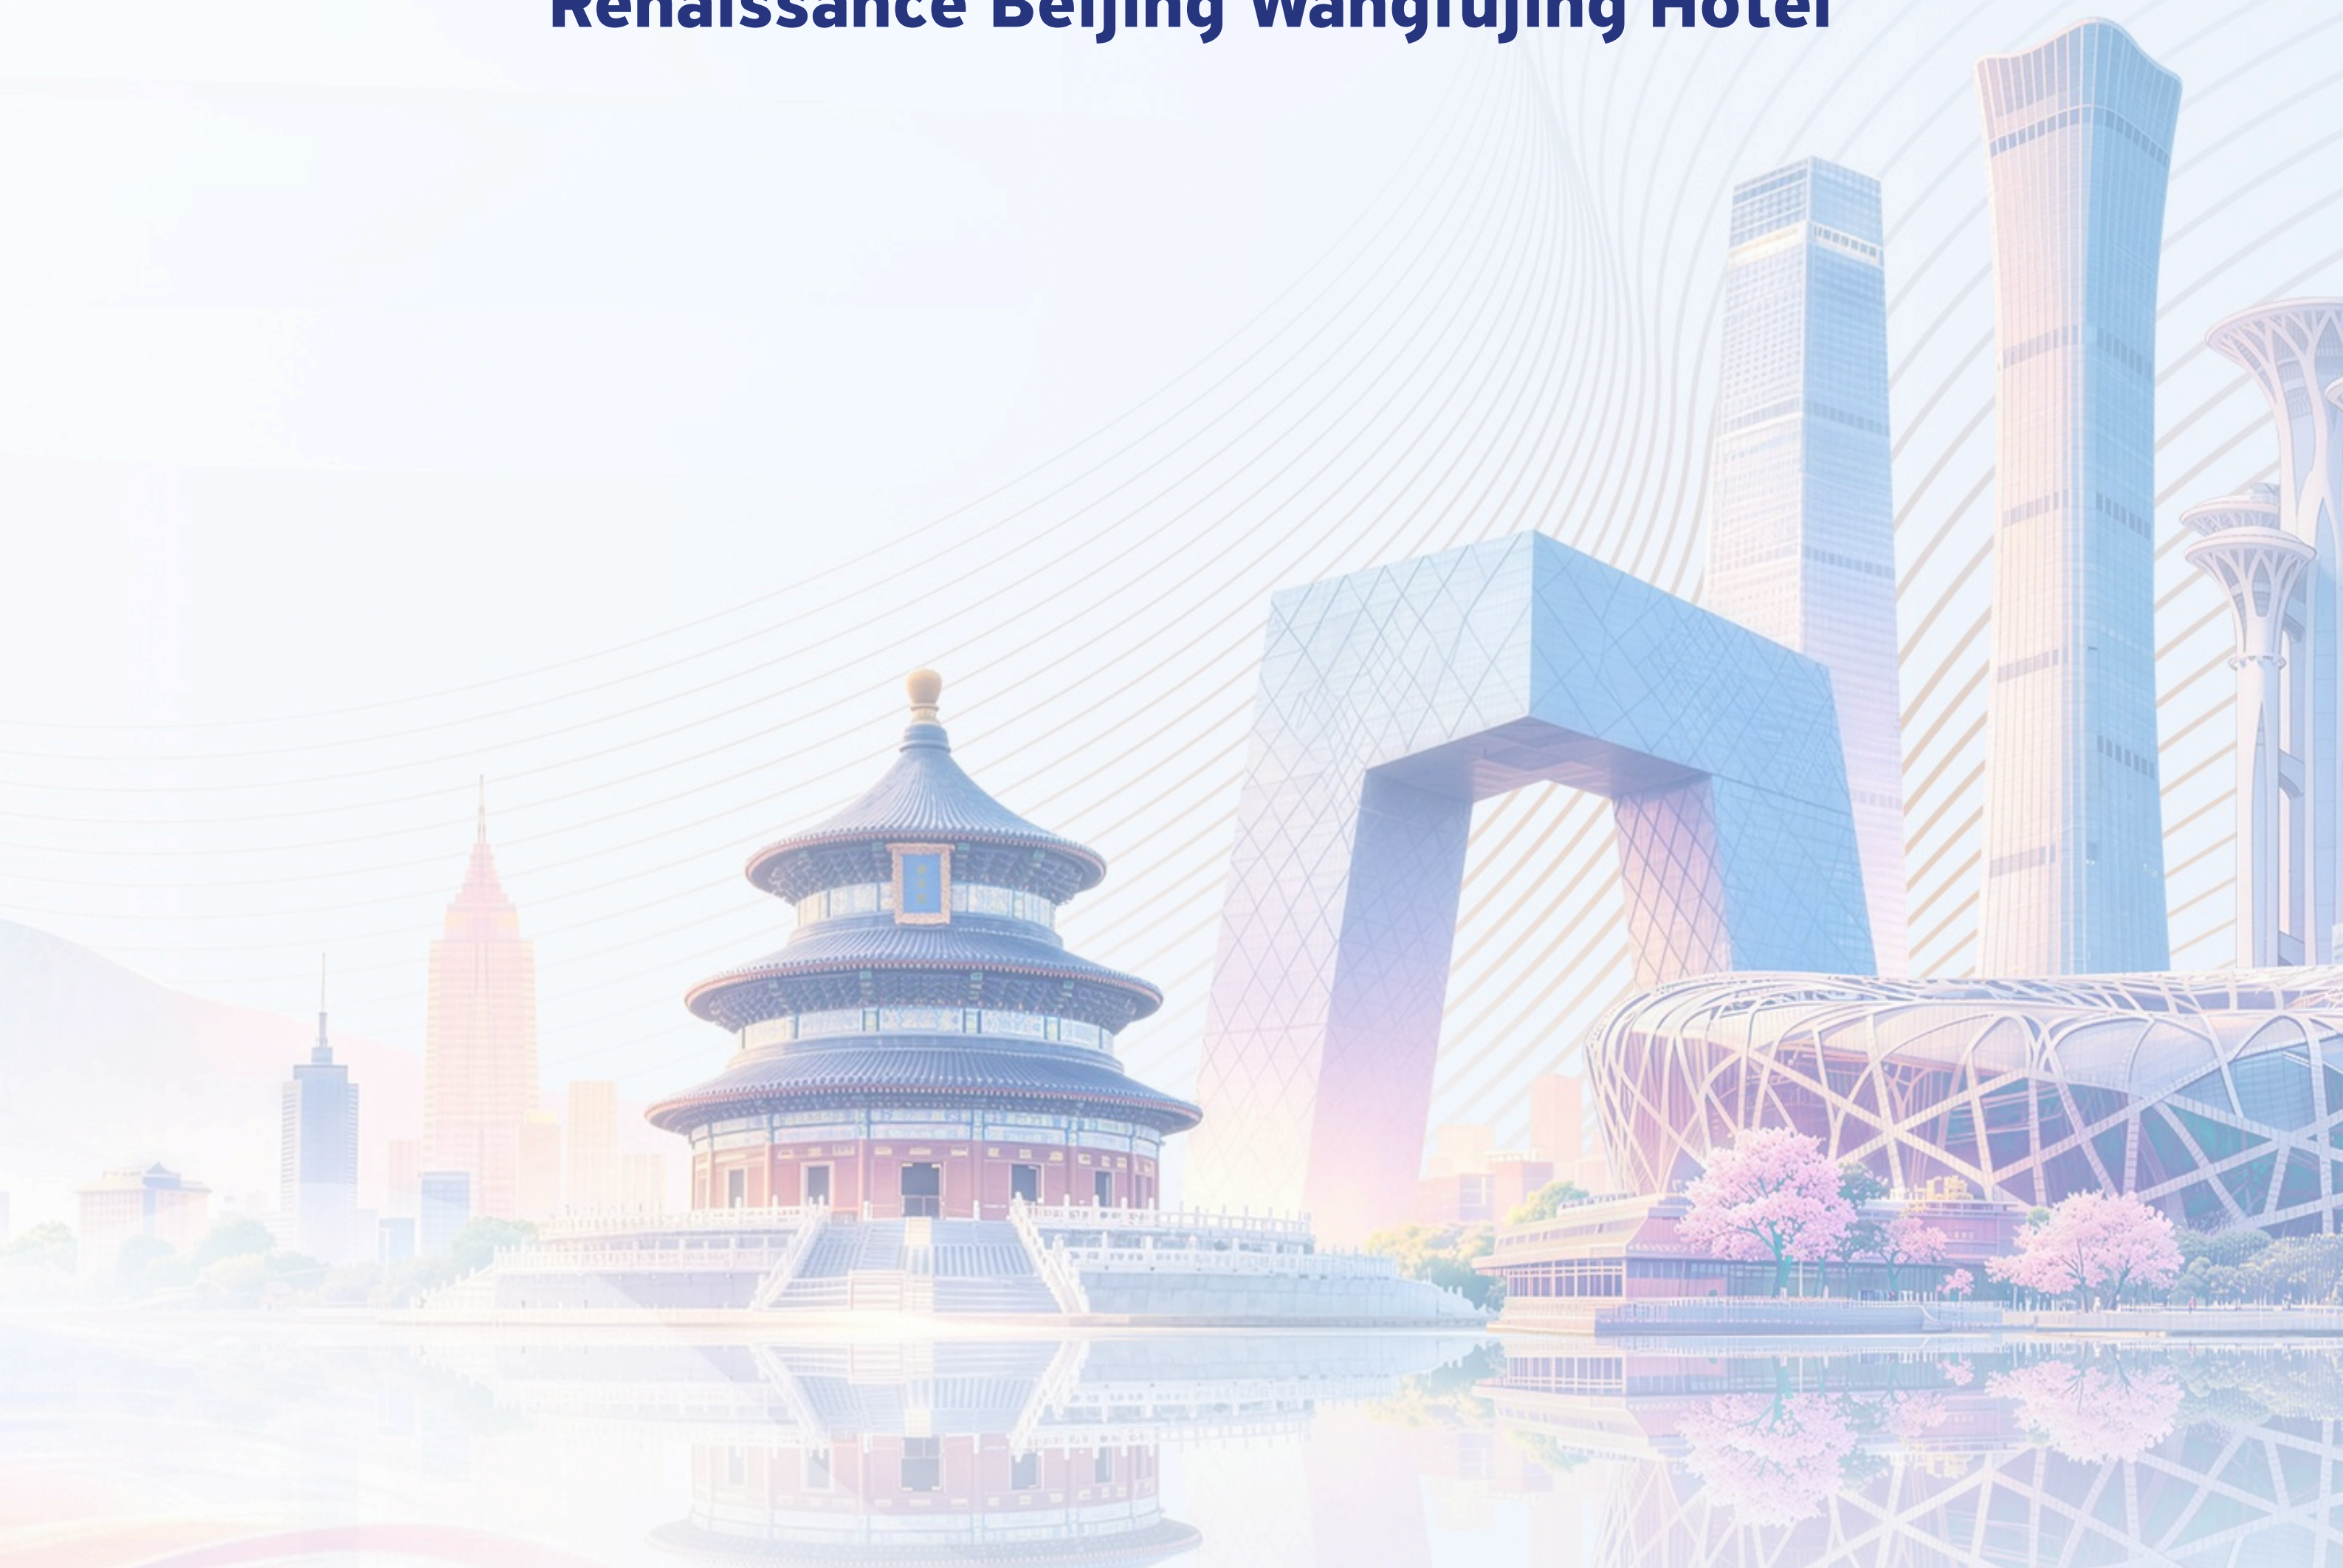

China Angioedema Summit:

Bridging Science and Care

29–30 October 2026 | Beijing, China

Scientific Programme

**📍 Grand Ballroom, 3rd Floor,
Renaissance Beijing Wangfujing Hotel**

Scientific Programme

EAACI-CHARD
China Angioedema Summit:
Bridging Science and Care

29 October 08:00-12:30

Time	Topics	Speaker
08:00-08:30	Opening Ceremony	
08:30-08:55	Over Four Decades of HAE in China: Evolution of Research and Clinical Management	Yuxiang Zhi
08:55-09:20	The Targeted Therapy Toolkit: Current Clinical Use and Selection Strategies in HAE	Mauro Cancian
09:20-09:45	Intelligent Clinical Classification and Diagnostic Prediction for Angioedema	Mohamed Shamji
09:45-10:10	Angioedema in the context of NSAID hypersensitivity: insights from the new EAACI Nomenclature	Maria Jose Torres
10:10-10:35	Beyond Complement: Bradykinin Detection by LC-MS/MS as the Next Frontier in HAE Diagnostics	Henry H Li
10:35-10:50	BREAK	
10:50-11:15	When It's Not Hereditary: Evaluating and Treating Idiopathic Angioedema	Christopher Chang
11:15-11:40	Small Patients, Complex Care: State-of-the-Art Management of Pediatric HAE	Henriette Farkas
11:40-12:20	Takeda Symposium 40 min	
11:20-12:30	Discussion	

Scientific Programme

EAACI-CHARD
China Angioedema Summit:
Bridging Science and Care

29 October 13:30-18:05

Time	Topics	Speaker
13:30-13:55	Unmasking a Hidden Diagnosis: International Consensus and Diagnostic Pathways for HAE with Normal C1-INH	Timothy Craig
13:55-14:20	Next-Generation Prophylaxis in HAE: A Clinical Trials Update on NTLA, Donidalorsen, Navenibart, and Deucrictibant	William Lumry
14:20-14:45	Rewriting the Code: CRISPR-Cas9 Gene Editing as a Therapeutic Frontier in HAE	Hilary Longhurst
14:45-15:10	From Burden to Breakthrough: Reimagining Long-Term Prophylaxis in Hereditary Angioedema	Danny M. Cohn
15:10-15:50	ADAR-x Symposium 40min: Targeted Therapies for HAE: From Mechanism to Clinical Practice	Henry H Li
15:50-16:05	BREAK	
16:05-16:30	Authoritative Interpretation of International Guidelines on the Classification and Diagnosis of Angioedema	Marc Riedl
16:30-16:50	Argo Symposium: significant Durable HAE Attack Reduction with BW-20805 — Phase 2 Update	
16:50-17:15	Beyond Attack Reduction: Interpreting the Latest Global Guideline for Hereditary Angioedema	Marta Ferrer
17:15-17:55	Pharvaris Symposium 40 min	
17:55-18:05	Discussion	
19:30-21:00	Closed door session O1 &O2: Consensus Discussion Session	

Scientific Programme

EAACI-CHARD
China Angioedema Summit:
Bridging Science and Care

30 October 08:00-13:20

Time	Topics	Speaker
08:00-08:25	Mastocytosis: from suspicion to diagnosis	Patrizia Bonadonna
08:25-08:50	Mast Cells in the Spotlight: Clinical Characteristics and Biomarkers of Allergic Angioedema	Gulfem Elif Celik
08:50-09:15	Non-advanced mastocytosis: from bench to bedside	Vito Sabato
09:15-09:35	CSL Behring Symposium 20min: Application of Garadacimab in HAE: Clinical Trial Evidence and Real World Experience from Hong Kong	Philip Li
09:35-09:55	Novartis Symposium 20min: Last Therapeutic Advances in CSU and Mast Cell-Related Disorders	Jianmin Chang
09:55-10:15	BREAK	
10:15-10:40	TRP Receptors in Angioedema	Raffi Tachdjian
10:40-11:05	From Data to Discovery: Multi-Omics Reveals Galectin-3 as a Central Player in HAE Inflammation	Janice A. Layhadi
11:05-11:30	Complement in Angioedema: From Pathophysiology to Clinical Implications	Asli Akkor
11:30-11:40	Screening strategies for HAE: diagnostic value, limitations and differential considerations of complement C4	Rongfei Zhu
11:40-11:50	Landscape of Hereditary Angioedema in China: a multicenter cross-sectional questionnaire survey	Yingyang Xu
11:50-13:10	Excellent Paper Oral Presentations and Case Highlights (oral presentation) 6 min presentation+2min Q&A per Speaker	
	Closing Ceremony	
13:10-13:20	Conference Summary
