Name	Main Research Area	Country
Federica Pulvirenti	Gastric cancer in IEI, quality of life in IEI, biologics to treat allergy in IEI, vaccination in IEI, B cells in IEI	Italy
Annalisa Santucci	Urticaria	Italy
Indrashis Podder	Urticaria	India
Yashdeep Pathania	Urticaria	India
Hitesh Billa Lakshmi	Allergen Immunotherapy, Epidemiology, Anaphylaxis, Drug Challenge Test, Skin Prick Test	India
Joana Vitte	Mast Cell Tryptase and Diagnostic Bioassays, Artificial Intelligence and Allergy Prediction Algorithms, Novel Molecular Allergens and Cross-Reactivity, Environmental Exposome and Allergic Diseases	France
Huey-Jy Huang	Molecular Allergology and Component-Resolved Diagnostics, Allergen Microarray Technology and Antibody Reactivity Profiling, IgE Sensitization Patterns and Cross-Reactivity, Precision Allergy Diagnosis and Allergen-Specific Immunotherapy	Austria
Abhishek De	Urticaria, atopic dermatitis, psoriasis, biologics, small molecule immunomodulators	India
Renata Cocco	Food Allergy	Brazil
Idit Lachover-Roth	Food Allergy	Israel
Elif Karakoc-Aydiner	Primary immune deficiency, food allergy, hereditary angioedema	Turkiye
Luisa Ricciardi	Allergen immunotherapy, hymenoptera venom immunotherapy, EGPA, severe asthma, drug Allergy, anaphylaxis.	Italy
Montserrat Alvaro Lozano	Food allergy, chronic urticaria	Spain
Revathy S.	Allergen immunotherapy in vernal keratoconjunctivitis, Role of Insect sensitization in nasobronchial allergies, Pediatric chronic spontaneous urticaria of autoimmune type	India
Athanasios Damialis	Aerobiology and Airborne Allergens, climate change and planetary health, environmental exposures and allergic diseases, allergy and clinical immunology	Greece
Christopher Chang	Immunodysregulation, environmental allergies, epigenetics, autoimmunity, food allergies, atopic dermatitis	USA
Dr Shikha Garg	Serology, infectious disease, diabetes and allergy	India
Iva Topalušić	Pediatric asthma	Croatia
Emilia Faria	Primary immunodeficiencies	Portugal
Ebru Damadoglu	Severe asthma and NERD	Turkiye
Julian Londono	Atopic dermatitis, hereditary angioedema	Colombia
Woo-Jung Song	Chronic cough, severe asthma	South Korea
Francisca Castro Mendes	Asthma and allergic diseases, particularly in children; nutritional and environmental epidemiology; obesity and asthma; maternal nutrition and early-life determinants of respiratory health	Portugal
Caroline Roduit	The association between early life environmental factors, such as nutrition, microbial metabolites and allergic diseases.	Switzerland

Deniz N Cagdas Ayvaz	Immunology - immunodeficiency- immune system	Turkiye
Francesca Racca	Eosinophilic esophagitis	Italy
Sonia Santhakumar	Asthma	India
Yorkin Rasulev	Therapy, nephrology, cardiology	Tashkent
Shweta Agarwal	Ocular allergy, vernal keratoconjunctivitis	India
Jennifer Protudjer	Food allergy; pediatrics; psychosocial/mental health burden; mixed methods; medical education	Canada
Maria Jose Calvo Delgado	Immunology of hypertension, inflammation and cardiovascular pathophysiology, oxidative stress and antioxidant mechanisms, skin photoaging and molecular therapeutics	Spain
Dejan Dokic	Allergology, rhinitis, asthma, immunotherapy	North Macedonia
Leman Mutlu	Drug allergy- anti-TB drugs, respiratory allergy and pollen counting	United Kingdom
De Djob Bell Louis Pépin	Anaphylaxis, hymenoptera venom allergy	France
Lali Bugadze	Allergy, oncology, asthma, immunotherapy	Georgia
Alain Jacquet	Design and preclinical characterization of VLP-/mRNA-based vaccines for allergen-specific immunotherapy; component-resolved diagnosis of HDM/shrimp allergic sensitization	Thailand
Pedro Coelho	Asthma, allergy in sports, food allergy	Portugal
Subhabrata Moitra	Asthma, allergic airway diseases	India
Aikaterini Detoraki	Advanced therapies in severe asthma, drug allergy, chronic spontaneous urticaria and chronic rhinosinusitis with nasal polyps, eosinophilic granulomatosis with polyangiitis	Italy
Kirsten Perrett	Food allergy, food allergy prevention, diagnosis, treatment, sleep-disordered breathing	Australia
Karthik Nagaraju	Pediatric asthma, Asthma phenotyping Severe Asthma	India
Stella Nicolaou	Food allergy	Cyprus
Vito Sabato	Mast cell diseases, anaphylaxis, immune-mediated drug reactions: in vitro and in vivo diagnosis	Belgium
Aysen Bingol	Food allergy, asthma	Turkiye
Burcin Beken	Chronic urticaria, atopic dermatitis, asthma	Turkiye
Laura Bruno	Asthma	Italy
Nimrat S Sidhu	Allergy asthma	India
Susana De Barayazarra	Allergic rhinitis	Argentina
Vanesa Esteban	Anaphylaxis, immunology, endothelium	Spain
Dr Suresh Sagadevan	Asthma and allergy, COPD	India
Virgil Dalm	Primary immunodeficiencies	Rotterdam, the Netherlands

Irving Noe Lopez Fletcher	Prevention, inborn errors of immunity, pediatric allergy and clinical immunology, with particular interest in severe asthma and anaphylaxis	Guatemala
Joachim Fluhr	Epidermal barrier function, urticaria, inflammatory skin diseases, atopic dermatitis	Germany
Muntajibuddin Ahmed	Food allergy, urticaria, allergic rhinitis	Hyderabad India
Pamir Çerçi	Artificial intelligence and large language models in allergy and clinical immunology, clinical safety, performance evaluation, and Red-Teaming of AI Models, AI-assisted medical education and clinical decision-making, epithelial barrier and one health	Turkiye
Puja Srivastava	Idiopathic inflammatory myositis, Autoimmune connective tissue diseases, immunomodulatory therapies, primary immunodeficiencies and immunocompromised Patients	India
Ekaterina Khaleva	Severe asthma, biologics, systematic reviews, patient-centered care, adolescents, methodology, outcome research.	United Kingdom
Oliver Price	Respiratory physiology and exercise medicine, with a focus on the diagnosis, pathophysiological mechanisms and management of exercise-induced bronchoconstriction (EIB) and other exercise-related respiratory disorders. Complementary research explores the role of physical activity and personalised exercise interventions in asthma management, including relationships with airway inflammation, immunomodulation and clinical outcomes, particularly in people with moderate-to-severe disease.	United Kingdom
Emilia Vassilopoulou	Nutritional immunology, nutritional psychology	Greece
Nikolaos Kitsos	Drug Allergy	Greece
Riccardo Castagnoli	Immunology (clinical and translational)	Pavia, Italy
Marta Palomo Irigoyen	Dermatology: inflammatory skin disease, inter-organ communication, fibroblasts	Austria
Andrzej Eljaszewicz	Airway remodeling, the role of mesenchymal stromal cells in regulation of asthmatic inflammation, mechanisms of asthmatic inflammation and lung fibrosis	Poland
Paolo Maria Matricardi	Artificial Intelligence, Digital Health, & Molecular IgE tests applied to Allergy and Allergen Immunotherapy	Germany
Jiaming Lu	Risk-stratified of systemic adverse Reactions in subcutaneous specific immunotherapy	China
Şule Büyük Yaytokgil	Drug allergy, food allergy, asthma, allergic rhinitis, atopic dermatitis	Turkiye
Maria Bova	Angioedema and urticaria	Italy
Adam Chaker	Allergy immunotherapy, CRSwNP, biomarkers	Germany
Greeshma M V	Allergy, asthma, COPD, epidemiology	India
Tomas Milota	Primary antibody deficiencies, atypical B Cells, immune System Dysregulation	Czechia
Philip Li	Drug allergy, penicillin allergy delabelling, hereditary angioedema, chronic urticaria, immunodeficiency	Hong Kong SAR, China
Matteo Martini	Asthma, hymenoptera venom allergy	Italy
Blanca Cárdaba	Molecular mechanisms implicated in asthma. Biomarkers and potential therapeutic targets.	Spain
John Holloway	Genetic and epigenetic epidemiology applied to allergic and respiratory diseases; early life origins of allergy and asthma	United Kingdom
Risa Fukuda	Mastocytosis, skin barrier dysfunction in atopic dermatitis, stratum corneum analysis using confocal Raman spectroscopy	Tokyo, Japan
George Christoff	Asthma, severe asthma, allergic rhinitis, CSU	Bulgaria
Ahmed SERI	Immune dysregulation / systemic autoimmunity in children	Qatar

Sevgi Köstel Bal	Immunology, inborn errors of immunity, immunometabolism	Turkey
Stefania Arasi	Food allergy	Italy
Luljeta Ahmetaj	Immunotherapy, epidemiology, effector systems	Kosovo
Thomas Eiwegger	Food Allergy, biologicals, mechanisms and new approaches in the context of immunotherapy, diagnostics food allergy	Austria
Vesna Vukicevic Lazarevic	Respiratory allergy	Croatia
Ian Adcock	Asthma, inflammation, data analytics	United Kingdom
Dragan Mijakoski	Occupational allergies, COPD, occupational asthma, climate changes, workplace mental health, core outcome sets, food allergy, dermographism, qualitative studies, systematic reviews	R. N. Macedonia
Kiwako Yamamoto-Hanada	Atopic dermatitis and food allergy prevention, early allergen introduction, Environmental exposures and allergic disease, childhood allergic diseases	Japan
Pavel Kolkhir	Chronic urticaria	Germany
Varsha Dwivedi-Halasz	Pediatric allergology-immunology, allergy prevention, allergen immunotherapy, role of basophils in allergy	Austria
Alberto Alvarez-Perea	Anaphylaxis, food allergy, pediatric allergy	Spain
Stefan Schülke	Novel Adjuvants in AIT and their immune-metabolic effects	Germany
